

# OT CASELOAD PRIORITIZATION

---

## 1. Safety and related equipment – in the school and home

- Seating – toileting, meal time, wheelchair
- Feeding – protocols, positioning, any equipment
- Transfers – training and protocols
- Access to school buildings and homes

## 2. Sensory processing and significant regulation needs

- Students unable to attend full days
- Students with current safety plans
- Students with self-injurious behaviors
- Resources available to implement relevant programming (EAs, Classroom/School Groups)

## 3. Supplementary Services

- Less critical sensory processing and self-regulation needs
- Motor coordination, fine motor and written output
- Assessments as part of a larger diagnostic query
- Education for school teams, classrooms, and students
- Updates, reviews, follow-up to existing programs
