Transfer & Lifting Procedure

The SATP OT/PT's are responsible for completing lift needs assessment and all lift training for SEA's and other support staff. The SATP OT/PT's will determine the presence/absence of the complicating factors or tone issues.

1/ Where the student's weight is equal to or less than 35 lbs and has:

-Partial or no weight bearing, **without** complicating factors or tone issues:

- 1-person lift
 - From wheelchair to the same level (change table, plinth etc).
- 2-person lift
 - From floor to wheelchair.

-Partial or no weight bearing, **with** complicating factors and/or tone issues:

- 2-person lift for all situations.

2/ Where the student's weight is greater than 35 lbs but less than 70 lbs and has:

-Partial or no weight bearing, **without** complicating factors or tone issues:

- 2-person lift.

Partial or no weight bearing, **with** complicating factors and/or tone issues:

- No manual lifting, mechanical lift is required.

3/ Where the student's weight is greater than 70 lbs:

- No manual lifting, mechanical lift is required.
